EXPERIENCE

Co-Founder | Some Peeps Studio, Melbourne

July 2024 - Present

- Co-founded a design collective with a group of close friends. Working closely to define brand, image, content strategies, and logo.

- Collaborated amongst a remote team, organising daily standup meetings to remain up-to-date on key projects in the studio.

- Assist on projects like: web designs, digital assets, social media content, website development, and brand management.

Front-End Web Developer | Freelance Work, Sydney

April 2020 - Present

- Utilised React, HTML5, CSS3, and JavaScript to deliver custom web solutions for clients such as NIDA, ReachOut, Two Chaps, Coleman Grieg, and local cafes & small businesses.

- Conducted client meetings to understand product requirements and designed interactive UI/UX prototypes using Figma and Sketch.

- Developed fast and responsive web apps & websites, ensuring accessibility standards (WCAG2) and UI platform guidelines were met.

- Proactively collaborated on project timelines, fostering a supportive environment throughout the development process, and effectively communicating project requirements and delays to key stakeholders.

Bicycle Mechanic | Beam Mobility, Alexandria

May 2022 - July 2023

- Developed expertise in IOT troubleshooting and bicycle maintenance.

- Effectively adapted to a new skill set, embracing hands-on work and rapidly acquiring new knowledge in an unfamiliar career.

- Collaborated with an Agile team, conducting standup meetings several times per week to streamline communication with elevated stakeholders.

- Trained new staff members and introduced innovative methods to enhance efficiency, adopt new processes, all the while maintaining meticulous attention to detail in the products I repaired and dispatched.
- Problem-solved technological issues, recommended appropriate

software packages, and provided comprehensive technical notes to assist application developers.

LANGUAGES

HTML, CSS and JS - 5 years

JSX, React and VBA - 2 years

Java and Objective-C - 1 year

DEV SKILLS

OOP – Delivering continuous updates via a VCS to develop a native mobile app and an Oracle Database.

QA Testing – Created documentation, recorded detailed testing notes; developed testing workflows, and automated testing processes.

Debugging – Analysed bugs, tested code across multiple devices, and published code for code reviews.

UI/UX Expertise – Working experience with Figma, Sketch, and the Adobe Creative Suite to create responsive pixel-perfect User Interfaces for web and mobile platforms.

QA Tester | Shift8 POS, Pyrmont

July 2019 – April 2020

- Proficient in JavaScript, Swift, and C++, ensuring thorough testing of iOS and tvOS apps, and a C++ based application.

- Composed user documentation and performed automated testing with Jest, and conducted meticulous manual testing with detailed information.

- Provided remote and onsite technical support, collaborating with developers to distribute updates and bug fixes to clients.

IT Consultant | Building Innovations Australia, Surry Hills

June 2017 – March 2019

- Leveraged JavaScript, HTML5, CSS3, JSX, and VBA to develop and implement a Microsoft Dynamics 365 CRM enterprise system, significantly enhancing efficiency and analytics within the company.

- Created new business rules, custom workflows, and XML document templates for the system, while seamlessly migrating data from legacy systems.

EDUCATION

Graduate Diploma in Computing | Sydney University

January 2018 - December 2021

PROJECTS

Yourmate | Android and iOS Application

- Yourmate is a React Native application, currently in beta testing, and scheduled for release on the Google Play Store and Apple App Store.

- The app provides users a friendly interface to search mental health helplines, call them directly, and find similar services for users.

- Previously written in Android (Java) and iOS (Swift), redevelopment in React Native has allowed for faster deployment, a centralised codebase, and a simpler debugging and QA testing experience.

TEAMWORK SKILLS

Fast Learner - Self-taught React Native, to rapidly publish an iOS and Android App for beta testing.

Problem Solving – Reviewed internal business processes and built workflows that boosted quote delivery by 200%.

TECHNOLOGIES

Libraries - React.js, SASS, Bootstrap, and Android & iOS SDK's.

Organisation - Version Control Systems, Trello, Twilio, Slack, MS Project, Monday.com, and Harvest.

IDEs - XCode, Android Studio, VS Code, Brackets, and Eclipse

INTERESTS

Video Games, Music, Yoga, Cycling, Surfing, and Cooking.
